

Pukekohe Sale Livestock Report

4th November 2023

The cattle market at Pukekohe on Saturday was buoyant, helped by recent good rain and sunshine. Despite schedule drops at meat works, good buyer support ensured prices for killable cattle remain in seller's favour. Fewer yearling cattle on offer met with keen bidding, and weaner cattle increased in value over the last week or so. With large numbers of weaners on offer, there looks to be some great buying opportunities coming up!

Cattle	Lowest-Highest Price		Price Per Kilo Range
	\$/Head	\$/Head
