

Pukekohe Sale Livestock Report

Saturday 9th January 2021

The first Pukekohe cattle auction for 2021 saw prices surprisingly solid as a good bench of buyers competed well from some good quality stock. Killable cattle prices have certainly eased, reflecting schedule drops and real killing space issues. However, any yearling or weaners that were of any quality sold really well. Lesser bred cattle, or anything horned, are significantly discounted!
